Under Domain\Username enter blue\your NetID. Under Server change to cumail.creighton.edu. Put a check mark in Use secure connection (SSL) and Accept all SSL Connections then touch Done

Under Account Settings touch the item you want to automatically sync, then touch Done

Under Account setup you can give your account a name (example: Creighton) then select Next

This will bring you back to your **Accounts** screen. You should see your Creighton account in the list. To access your email go back to your **Applications** and touch **Email**
