

**Using Technology!**

**DoIT Spotlight**

**Susmita Pal, Senior DBA Enterprise Applications**

Beta testing for the Lightboard pilot is currently in progress with the RaD Lab and Biology faculty members, Dr. Mark Reedy and Dr. Alistair Cullum. Above, Dr. Cullum tests how the Lightboard might be used in a Biology lecture.

**Spouse:** Siva Dharman  
**Hobbies you have** – Reading, Travelling, Cooking  
**Favorite food** – I love traditional Bengali and South Indian cuisine. Especially when served on banana leaf.

**Favorite books:** Writing of Jules Verne, Tagore and Satyajit Ray, God is a Gamer, The Guardians of the Halahala, THE MAHABHARATA: A Modern Rendering by Ramesh Menon The Iliad & The Odyssey and many more....

**The New BlueQ with Qualtrics**

In May, Creighton will have a new vendor behind our online surveys application, BlueQ. Every Creighton constituent with a NetID and Blue password will be able to have an account. There will be several presentations by faculty and staff on how to create a basic survey using this new tool.

**Favorite movie or TV program** – News

No reservations are required to attend any of these open presentations:

**Interesting places you traveled:** Chichen Itza - Isla Mujeres - Riviera Maya – Cancun - Yucatan, Atlantis-Bahamas (Paradise and other Private Islands), Forts, Palaces and Caves of India - Amber Palace, Mysore Palace, Gwalior fort, Chittorgarh fort, Kumbhalgarh fort, Mehrangarh fort, Ajanta cave, Vijaydurg fort, Murud-Janjira fort, Karla Cave, Red Fort, Sindhudurg fort and many more... Singapore (Night Safari is the best), National Parks of USA – Yellowstone, Arches, Badlands, Grand canyon, Bryce Canyon, Smoky Mountains, Hot Springs, Zion, Canyonlands, Capitol Reef, Grant Teton and many more..... Finally “Memorable Pikes Peak-Colorado” (*I got my ring there*)

Date	Time	Location	Presenter
May 20	9:00 – 10:00 a.m.	Hixson-Lied Science 244	D Horton
May 25	10:00 – 11:00 a.m.	Hixson-Lied Science G04	S Singh
May 26	9:00 – 10:00 a.m.	Harper Center 3033	D Horton
May 28	10:00 – 11:00 a.m.	Criss L-62	L Rubarth
June 1	3:30 - 4:30 p.m.	Harper Center 3048	C Burk
June 16	10:00 – 11:00 a.m.	Criss L-62	A Smith
June 24	10:30 – 11:30 a.m.	RAL Union Pacific Room	W Dooling
June 30	2:00 – 3:00 p.m.	RAL Union Pacific Room	W Dooling

**OneDrive App for Mobile!** You can preview documents in the app, and then launch documents in the other Office Apps on your phone. Read more

## How Sensitive is this Data?

All data at Creighton falls under one of three different classifications; Confidential, Private, or Public. Confidential data is the highest sensitivity and is data that Creighton has an ethical or legal obligation to protect. Examples of this kind of content would be non-directory student data, data protected by regulations such as HIPAA, PCI, or FERPA, sensitive employee data such as social security numbers, driver's license numbers, etc., and credit card information. This type of data needs strict controls around how it is accessed, transmitted, and stored.

Private data is data that is confidential to the university and its business processes, constituents, and contractual obligations. Unlike confidential data, this information is not part of a legal obligation to protect, but the unauthorized release of this information could cause damage to the university and stakeholders. This includes data such as employee data like payroll information, birthdate, and other personally identifiable information, Creighton financial or donor information, and research or academic information.

**All other information would be classified as public and might include directory information, published documents, campus maps, etc. In accordance with the Data Classification policy the data owners are entrusted with classifying the data sensitivity and protecting the data with proper controls. If you are working on a project with sensitive or confidential data make sure that you know the proper methods of protecting this data.**

Want An Easy Way to Submit An IT Request? Never Fear, Help Is Coming Soon!

DoIT is replacing our current IT Service Management Ticketing System with EasyVista. EasyVista is a flexible, agile and scalable web-based solution that works on any computer or device type. EasyVista provides a quick tool for IT incident and problem reporting, change and release management, and asset management, delivering real-time metrics, reports and much more! Additionally, Creighton will soon have an on-demand self-service portal that provides answers to more common IT related questions.

Look for more details coming soon or visit the ITSM Blog!
